**2003 BILL**

***Analysis by the Legislative Reference Bureau***

Current law generally limits the increase in the total amount of revenue per pupil that a school district may receive from general school aids and property taxes in a school year to the amount of revenue increase allowed per pupil in the previous school year increased by the percentage change in the consumer price index. Several exceptions are provided. For example, if a school district increases the services that it provides by adding responsibility for providing a service transferred to it from another governmental unit, its revenue limit is increased by the cost of that service.

2003 BILL

Reger

- 1 AN ACT *to repeal* 121.91 (4) (dg) and (dr); and *to amend* 121.91 (4) (d) of the  
2 statutes; **relating to:** carrying forward a school district's unused revenue limit  
3 authority to the succeeding school year.

*Analysis by the Legislative Reference Bureau*

Current law generally limits the increase in the total amount of revenue per pupil that a school district may receive from general school aids and property taxes in a school year to the amount of revenue increase allowed per pupil in the previous school year increased by the percentage change in the consumer price index. Several exceptions are provided. For example, if a school district increases the services that it provides by adding responsibility for providing a service transferred to it from another governmental unit, its revenue limit is increased by the cost of that service.

Currently, with certain exceptions, if a school district's revenue in any school year is less than its revenue limit for that school year, its revenue limit for the succeeding school year is increased by 75 percent of the difference between its revenue and its revenue limit. This bill allows a school district to carry forward 100 percent of the difference instead of 75 percent.
